Assignment 2 HTML   DES 251
                              Digital Media Design

HTML - 2

Create a second generic HTML webpage in your Assignment01 directory using TextWrangler.
Link this new page (schedule.html) to your first HTML page (index.html)

Schedule Page (shedule.html)
          Monday through Sunday format
          Courses and other "mandatory weekly events"
          Link back to your index.html page

Test your connected pages in all the browsers that you have in your laptop.

Your second webpage should the following elements:
At least one table.
At least one anchor link to a specific location either on the schedule or on the index page.
At least one figure (choose any image to illustrate your courses and other activities).
At least 3 comments.
At least one of the HTML5 document structure tags (header/footer/article).
Properly formed HTML tags.

Submitting Your Assignments
Use Right Mouse Click to compress your assignment folder into a single file in .zip format. Rename your .zip file with assignment2_your last name. Use underscore instead of spaces. Upload your zip file to the assignment folder in the DES251 directory on BOX. You need your UIC netid and password to login to BOX.
