

DES 350

## **Digital Media Design IV**

### **JavaScript Assignment 6**

Write a script to print “DES 350 class” if current day is Monday or Wednesday.

Create a function to determine current day using Date object.

Use DOM event handler to print the message.

#### **Reference examples:**

Event\_hadler.html

Event\_artribute.html

If statement example

Day\_of\_Week.html

#### **Technical concepts:**

If statement

Date object
